CLIENTE

Familia formada por una pareja de 40 años y 42 años, y un niño de 4 años. Él es Abogado, y ella es Diseñadora de éxito que en su tiempo libre, y como afición, realiza trabajos con resina epóxica. Hace unos meses recibieron una herencia inesperada, y decidieron emplear el dinero en convertir el garaje familiar en su vivienda habitual.

Ambos comparten su pasión por el mar y la náutica. Poseen un barco, que por circunstancias laborales no disfrutaban como a ellos les gustaría. Por éste motivo, han pedido que la futura vivienda evoque el interior de un barco.

Les gustan los espacios amplios, luminosos y funcionales. No quieren que las estancias estén recargadas de mobiliario, ni de decoración.

Por ésta razón he elegido el estilo Minimal, con formas y colores que pueden sugerir que están en el barco de sus sueños.
